

## SUSTAINABLE USE CODE OF CONDUCT

The Dallas Safari Club ("DSC"), by and through its governing Board of Directors, approves this Sustainable Use Code of Conduct ("Code") to advance the DSC Mission to ensure the conservation of wildlife through public engagement, education and advocacy for well-regulated hunting and sustainable use.

As used in the Code an "Outfitter" within a specific nation/state/province ("destination") is defined as the company or owner, professional hunter or guide, professional angler or guide, or booking agent that is responsible for the principal matters of business that are associated with a client's hunting or fishing expedition.

DSC expects Outfitters, who participate in DSC membership, programs, and exhibitions will operate in good faith to provide exhibition services that honor all applicable laws and are consistent with professional and ethical guidelines per industry standards. These expectations are intended to protect the safety and interests of clients, the integrity of the industry, and the goodwill of DSC.

1. Outfitter must be a member of Dallas Safari Club and abide by its Sustainable Use Code of Conduct.
2. Outfitter will abide by all laws applicable to the destination and services or activities engaged. Outfitter will only operate in a destination where Outfitter, its staff, guides, and professional hunters are legally permitted, certificated, or licensed to conduct business. Outfitter will produce proof of such information when required.
3. Anyone selling, marketing, offering, or promoting the services of Outfitters will do so only with express permission from the Outfitters. Upon request of DSC, such persons are expected to produce written evidence of permission from the Outfitter to engage in the applicable services for the Outfitter.
4. Outfitter will not offer excursions on private lands where the Outfitter does not have written agreements or expressed permission to offer such excursions.
5. Outfitter is expected to ensure that all capes, horns, antlers, meat, and other game resources are accompanied by legally required licenses and/or records, until those game resources are delivered to an applicable taxidermist, tannery, or processor.
6. Outfitter will always ensure high level of honesty, integrity, and transparency in all dealings with clients, landowners, communities, government authorities, and DSC and will never allow monetary gain to supersede such principles.

Approved by DSC Board of Directors December 16, 2025.
